AURA *Manuka Honey Mask*

“Skincare transformed by fusion of science and tradition”

A traditional remedy prized for centuries by New Zealand’s indigenous Maori is revolutionising skincare, thanks to developments in modern day science.

The Antipodes® Natural Aura Manuka Honey Mask is a luxuriously hydrating daily cleanse treatment, which replenishes vital nutrients and restores natural radiance.

Created by scientifically validated beauty brand, Antipodes®, the Aura Manuka Honey Mask combines a unique blend of Manuka honey extract with organic avocado oils rich in Omegas 9, 3 and 6.

The result is an all-encompassing luxury mask that deeply hydrates and softly cleanses facial skin from impurities. Extracts of vanilla pod and mandarin blend into a sense-enlivening fragrance, to balance, purify and uplift.

Manuka honey has long been cherished for its powerful antibacterial and astringent properties, ideal for removing facial blemishes and acting as an anti-wrinkle agent.

Antipodes® certified organic and natural skincare is currently sold in seven countries as well as 220 stores throughout New Zealand. The Natural Aura Manuka Honey Mask is suitable for daily use.
